For Immediate Release:

## **Diamond Products Introduces the HDS60 Dragon Saw, Deep Cutting Ring Saw**

**ELYRIA, OHIO** - Diamond Products Ltd announces the introduction of its 16"/20" blade capacity *Dragon Saw* deep cutting hydraulic ring saw to its product line. This ring saw uses a patent pending; self torque anti-slip drive roller system to ensure a safe, straight cut.

### **Amazing features:**

- 16" (12" cutting depth) or 20" (16" cutting depth) blade capacity
- Up to three times faster than chain sawing
- Diamond blade life up to five time longer
- The only had saw capable of cutting up to 16" deep in concrete or block
- Requires low maintenance while offering superb performance
- Uses hydraulic power of 8 to 9 gallons per minute
- Light weight – only 29.8 lbs.
- Wet cutting only

More information about the HDS60 Dragon Saw and other Core Cut® products are available by calling Diamond Products at 800-321-5336 or visit [www.diamondproducts.com](http://www.diamondproducts.com)
