For Immediate Release:

Diamond Products Introduces the FC7312 and FC7314 Fast-Cut SLR High Speed Hand Saws

ELYRIA, OHIO - Diamond Products Ltd announces the introduction of the Fast-Cut SLR high speed saws with Scavenged Loss Reduction technology (SLR) that allows reduced fuel consumption and cleaner running engine.

Features:

- Choice of 12" or 14" blade capacity
- Runs cleaner and greener than other high speed saws
- SLR muffler complies with government emission limits – emission reduction with aging factor
- Powerful 73cc gas/oil mix engine
- 5-stage filtration system
- Water kit included with garden hose connection
- Modified decompression valve, carburetor and improved ignition coil for fast starting
- Includes tools for blade changing, guard adjustments and operation
- Improved fuel consumption and increased cutting efficiency
- Optimized cooling from air flow and fuel compensator reduces cylinder temperature

More information about the Fast-Cut SLR Saws and other Core Cut® products are available by calling Diamond Products at 800-321-5336 or visit www.diamondproducts.com
