Diamond Products Presents The Weka SR 35 Drill Motor

ELYRIA OHIO - Diamond Products a leading diamond tool manufacturer in North America presents the addition of the Weka SR 35 drill motor to its product line.

The SR 35 Electric drill motor allows drilling from 2" to 18" bit capacity when mounted on a drill stand.

Features found with the SR 35 motor include:

- No carbon brushes or rotating windings which translates into lower maintenance
- 9 optimal speeds
- Water cooled with water protection

This 230-volt, 16-amp motor is great for high production applications. The motor mounts onto the Core Bore™ M-2 drill stand for easy to use and reliable coring.

More information on this and other coring equipment or core bits can be found by calling 800-321-5336 or by visiting www.diamondproducts.com.
