## XL-Turbo Blades

ELYRIA OHIO – Diamond Products announces its latest edition of specialty turbo blades with the **XL-Turbo High Speed Turbo Blades**. These blades have special air holes in the core that allowing enhanced cooling during *accelerated* speeds. The ‘waffle’ style turbo segments are spaced on the core for less surface to surface contact, making the cutting speed even faster.

The XL-Turbo blade is offered in a 12” and 14” diameter that can be used on any standard high speed cut-off saw to cut concrete with medium to medium hard aggregate.

**For more information call Diamond Products at 800-321-5336.**
